

Perlaky Zsolt (36)

In 1999 he graduated from Budapest University for Economics where he specialized in financial policy and the mathematics of insurance.

At the beginning of his career he worked as a macro-economic analyst and a consultant in the financial sector.

In 2001 he continued his career in the real estate sector and worked as a financial analyst, a manager and a consultant at several real estate projects for Biggeorge's International Group.

Since 2003 he managed his own enterprises in the field of real estate developments so partly he was the manager and the investor of different residential developments and partly worked as a financial consultant for real estate managers and prepared them credit structures.

Since 2004 he has been working as a property advisor for Palace Ingatlantanácsadó Kft. which is one of the market leader in the sales of the newly built apartments and by now it has successfully finished building its network in Budapest.
